SKILLS

Frontend

- Angular, React
- HTML5, CSS3, SASS, Bootstrap
- JavaScript, JQuery, Devextreme, RxJs

Backend

- Laravel, ExpressJS, python

DataBase Management

- SQL, MongoDB, MySQL, AWS dynamoDB

Version & Control

- GitLab, TFS

LANGUAGE

- Arabic (Native)
- French (Fluent)
- German (Basic Proficiency)

INTERESTS

- Sports (e.g., Horseback Riding, Swimming)
- Technology Trends
- Camping
- Video Editing (creativity for UI/UX design)

EDUCATION

Engineer School at the Military Academy | 2015 - 2018

Embedded Systems Engineering.

Graduated top of the class with honors

Preparatory Institute for Engineering Studies in Monastir (IPEIM), Tunisia | 2013-2015

- Advanced preparatory courses in physics and technology. Ranked 143 in the national entrance exam for engineering schools

Said Abou Baker High School in Moknine, Tunisia - 2013

Bachelor's degree in Technical Sciences with honors

PROFESSIONNELLE EXPERIENCE

Angular Frontend Developer

Wattnow SA , Tunis-Tunisia | July 2024 - Present

- Maintained and resolved issues in existing projects.
- Designed and integrated new features and components.
- Contributed to the development of reusable libraries and tools.

Key Achievements:

- **Generic Layout for Admin and Client Dashboards:**
 - Designed a versatile layout for consistent UI/UX using Angular, CSS, and TypeScript.
 - Result: Standardized UI components, reducing development time.
- **Dynamic Toast and Popup Library:**
 - Developed a dynamic popup service using Angular 17 and NgRx.
 - Result: Enhanced user engagement and reduced implementation complexity.
- **Admin Dashboard for Device Visualization:**
 - Built a real-time admin dashboard for CRUD operations using Angular and NgRx.
 - Result: Improved device management efficiency.
- **Map Component for Device Location:**
 - Implemented a map feature with Angular and Leaflet for precise device location tracking.
- **AWS Lambda API:**
 - Created a serverless AWS Lambda API to handle backend operations.
 - Result: Reduced infrastructure costs and improved scalability, ensuring efficient API management and performance.

Angular Frontend Developer

Barthauer softwar Tunisia , Sousse-Tunisia | July 2023 - July 2024

- Contributed to the development and maintenance of custom libraries.
- Integrated new features for enterprise-level software solutions.
- Collaborated with teams for efficient codebase management.

Key Achievements:

develop Library :

- Created modular libraries for scalable and recursive integrations.
- Result: Improved scalability for over 10,000 client implementations.

Angular Front-end Developer

Inspiretech , Sousse-Tunisia | March 2022 – July 2023

- Developed advanced features for a project management platform.
- Collaborated on the redesign of an existing system for enhanced user experience.
- Ensured stability and reliability through continuous maintenance.

Key Achievements:

Car Parking Management Dashboard:

- Designed a dashboard with real-time map integration and CRUD operations.
- Result: Improved parking management and tracking capabilities.

Angular/Laravel FullStack Developer

National Office of Civil Protection, June 2019 – March 2022

- Developed advanced features for a project management platform.
- Collaborated on the redesign of an existing system for enhanced user experience.
- Ensured stability and reliability through continuous maintenance.

Key Achievements:

Car Parking Management Dashboard:

- Built a robust dashboard integrating real-time data with Angular and Laravel.
- Result: Enhanced overall system efficiency and user satisfaction.
